MatriVideo™ Command Center – A high performance enterprise real time video management system. Integrated with the latest video intelligence software, the MatriVideo™ Command Center offers the most comprehensive video search tools available in the market today. This innovation will keep you on the cutting-edge of technology.

The MatriVideo™ Command Center Lite software was designed with remote users in mind. If you're traveling on the road, maintaining the system off hours, or simply watching the video feeds occasionally, stay in command with this portable technology. No matter where you are, your security solution is in reach.

Ready for the next generation in CCTV technology? MatriVideo™ nCCTV is here to fulfill that need and revolutionize your security network. Officially referred to as Network CCTV (nCCTV), this system was designed for simplicity. Just plug the nCCTV into your current network infrastructure and start displaying video images from any camera source without the need for cumbersome cabling. nCCTV increases the MatriVideo Command Center from three monitors to meet your unlimited needs and allows for enhanced video alarm notifications and response.
